POST Integrations

Letter of Recommendation

Hilton Hotels and I have worked with POST Integrations for over 14 years. POST Integrations and its' CEO Mary Gerdts, have always demonstrated the highest level of integrity, honesty and a service culture that no organization even comes close. Their staff is just simply exceptional! POST Integrations' systems are sophisticated, yet flexible to deliver data that is actionable, easy to understand and meaningful. Their online tools are just fantastic. POST Integrations has an exceptional track record on delivering the lowest cost related interchange categories possible. POST Integrations also does an exceptional job in managing chargebacks behind the scenes, minimizing manpower hours at the business unit level and reducing chargeback losses.

My experience with POST Integrations is that they truly manage their accounts as if they were a partner in the business. I would recommend POST Integrations to any organization . . . without any reservations.

They are simply the best!

A handwritten signature in blue ink that reads 'Carlos Garcia'.
